Poral circa 1950

History

At the end of the 19th century, Frédéric Lebouc's great-great grandmother, Marie-Olympe Brière produced objects that were mostly for everyday use in a workshop in Limoges.

She took the forward-thinking decision to send her son, Frédéric Legrand, to study in England. On his return to Limoges in 1904, he founded Legrand et Cie, a porcelain business that he ran successfully until he left for the front line. When he returned from the First World War he diversified into electrical accessories, as porcelain was, at the time, the most widely used electrical insulator.

His daughter, Paule Legrand married an engineer from the Arts & Métiers institution in Paris named André Lebouc who ran Legrand until its closure during the Second World War.

In 1949, André Lebouc and his son Hugues opened the Poral factory, a test porcelain factory that was ground breaking as much in its modern manufacturing processes as its avant-garde labour conditions. It was the first factory to open after the war, and was inaugurated by high-ranking officials. It was also the first business of its kind to receive public and private financial support.

At the end of 1953, André and Hugues Lebouc created the porcelain decoration company Legle France, and in 1963, the porcelain tile company Les Carreaux de Limoges. Hugues Lebouc, who was both pioneering and a visionary, went on to refine porcelain decoration techniques adapting the most modern processes.

Frédéric, son of Hugues and grandson of André Lebouc, took the helm after the death of his father in 2000.

Just as in Marie-Olympe's workshop all those years ago, the extremely skilled craftsmen at Legle France continue to seduce using materials and colours. Ceramic artists and glaziers work with the same meticulousness, perpetuating prestigious craftsmanship.

Fire and Earth

For seven generations, the Legle Legrand Lebouc Company has been passing skills and expertise down through the family in Limoges, where they continue the old artisan traditions to this day. These traditions are now in the safe hands of Frédéric Lebouc and his team.

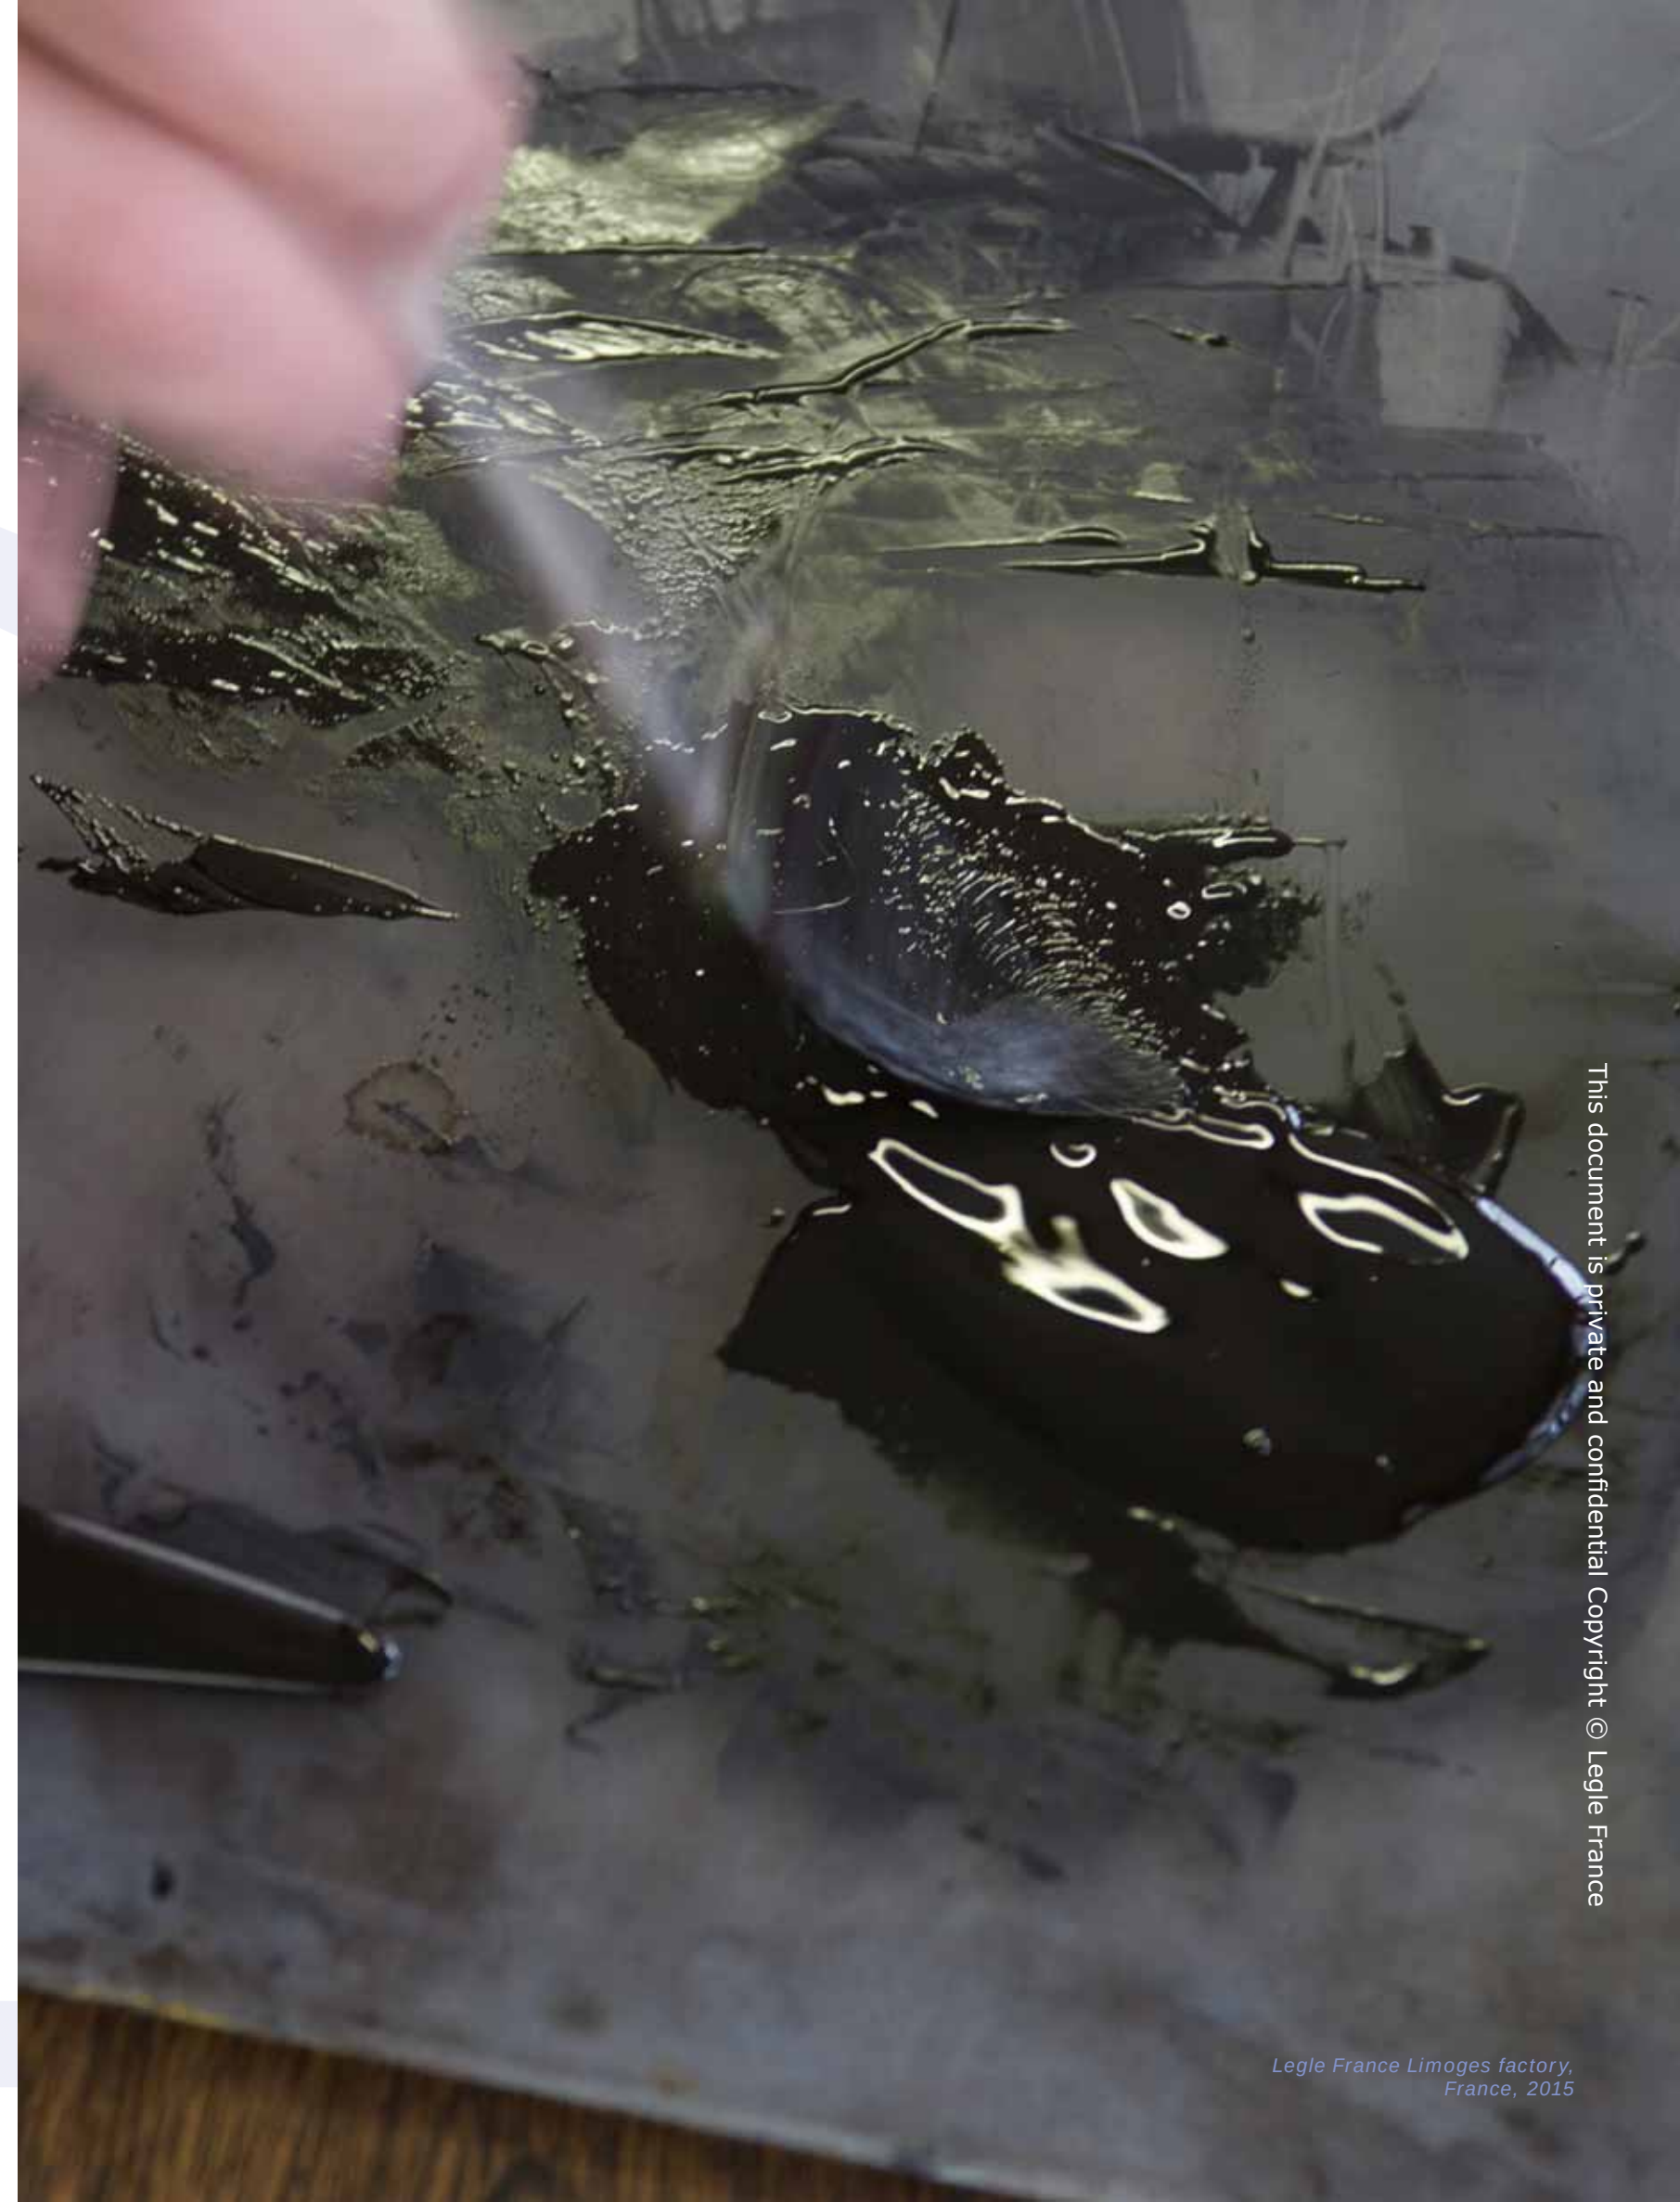

This tradition stretches back a long way, but does not stand in the way of breakthroughs and flashes of inspired innovation. Here masterful technique and visual beauty come together in the very best of contemporary creative design.

From complete mastery of the kiln-firing process to the careful incorporation of precious metals, LEGLE accepts nothing less than the best. This is why they've been awarded the "Living Heritage Company" label. ("Entreprise du Patrimoine Vivant")

Porcelain is born of the earth, offering a unique, sensual contact which stimulates emotions through sight and touch. Here, Legle France is the messenger between you and the clay, using fire to imbue the mineral with life and soul and releasing its very essence. While the forms may, by their very nature, be restricted, the themes are limitless and the colour pallet is unmatched. It is this hedonistic beauty, which turns tables and the very act of hosting guests into an art of its own.

Imagination and originality are the guiding forces behind this underlying search for new wonders and surprises for the client, the final link in the chain of creation. It is their demand for the truly unique that supplies the creator with the crucial spark of inspiration.

Ennobling your home, your table and your guests for your truly special moments: this is the Grail that Legle France can offer anybody who, through the elements of earth and fire, seeks to possess a moment of eternity.

The hands and eyes of skilled crafts people
are at the heart of Legle France

A simple dinner plate is the canvas for a chef to manifest his artistic creation. Legle France porcelain is designed to bring out the best of inspiration in each chef.

Auspicious Clouds

LEGLE FRANCE combines subtle and sophisticated lines with a signature circular shape to design a new pattern from a traditional symbol of good fortune. Frequently referred to as “auspicious clouds” because of the shared pronunciation between the Chinese words for “cloud” (云) and “luck” (运), the design repetition of clouds represents limitless luck and fortune.

Bambou

Inspired by the resurgence of chinoiserie in the early 20th century, LEGLE FRANCE combines a Chinese watercolor painting of bamboo with the distinctive crackle glaze design effects of Song dynasty ceramics.

Bronte

In 2013, a young artist from Central Saint Martins named Bronte Schwier, created a series of illustrations exclusively for LEGLE FRANCE, telling the story of how porcelain was first produced and shipped from China to France. Her vivid illustrations depict the remarkable journey with a refreshingly personal touch. The collection pays tribute to the history of porcelain and warmly connects it with the modern lifestyle.

Jardin De Paris

“She wanted to live, and live fully, and to give life, she who loved life! What was the good of existing, if you couldn’t give yourself?” – Émile Zola, “La Joie de Vivre”
A collaboration with French artist and designer Brigitte Murat, the Jardin de Paris collection takes inspiration from the romantic gardens of Paris. Murat’s charming sketches of pastel flowers, manicured lawns, and French architecture lift the spirits and evoke the French joie de vivre.

Lotus Painting

Thoughtful reflection reveals itself in every detail of the Lotus Painting tea service collection, which features a delicately blooming lotus flower depicted by the Hungarian porcelain painter, Erika Albrecht. Unfurled lotus leaves form the plates and graceful stems curve into every handle, while lotus buds adorn every lid.

Lotus Platinum

Three unique designs by Hungarian porcelain artist Erika Albrecht grace the flawless surface of each piece in the Lotus Platinum collection with a minimalist effect that quiets the mind while heightening the senses. Thoughtful reflection reveals itself in every detail of the collection where rippled edges of the plates simulate unfurled lotus leaves, graceful stems curve into handles, and unopened buds adorn every lid.

Qing Hua

The Qing Hua collection pays tribute to one of the most popular and symbolically significant styles of Chinese porcelain. LEGLE FRANCE draws inspiration from the blue and white floral designs on a Kangsi period, double-spouted cruet to create a classic pattern of timeless elegance.

Quatrefoil

LEGLE FRANCE adopts the iconic quatrefoil from Gothic and Renaissance period architecture, jewelry, and textiles and applies it to a modern porcelain design that underscores the harmony, symmetry, and balance of the four-petal shape. The gold-trimmed, blue and white pattern adds a contemporary elegance to the ancient decorative motif.

Ruyi gold Rim & Full Gold

Gleaming with the warm luster and translucence of fine jade, Ruyi is one of LEGLE FRANCE’s signature collections. The rounded corners, fluid curves, and clean lines embody the essence of Chinese ethos and philosophy. Lavishly lined in gold, the collection is perfectly suited for private dining rooms and sumptuous settings.

Ruyi Platinum Rim & Full Platinum

Gleaming with the warm luster and translucence of fine jade, Ruyi is one of LEGLE FRANCE’s signature collections. The rounded corners, fluid curves, and clean lines embody the essence of Chinese ethos and philosophy. Meticulously and elegantly lined in platinum, the collection is perfectly suited for both Chinese and Western gastronomy.

Yuan 1350

LEGLE FRANCE celebrates the skill and craftsmanship developed during the late Yuan and early Ming dynasties to produce technically challenging underglaze red decorations. The pure white porcelain perfectly offsets the deep red designs for a subtle and elegant collection.
